Git

Employment & Project History

Freelance Developer

- Built a diverse portfolio of successful projects showcasing proficiency in React JS, Node JS, and Figma integration, attracting new clients and opportunities.
- Developed and maintained responsive web applications using React JS, delivering user-friendly interfaces and ensuring optimal performance on various devices.
- Employed React Router to create dynamic, single-page applications (SPAs) that enhanced user navigation and experience, resulting in increased user engagement.
- Integrated third-party APIs and libraries into web applications, expanding functionality and providing users with access to external data and services.

Projects

Happy Cow | A Dairy-Free Recipe Application

- Integrated the Edamam API, enabling real-time recipe updates and increasing the recipe database, providing users with a broader range of choices.
- Developed individual recipe pages for an increase in user interaction through enhanced user interface elements and clear presentation of nutritional information.
- Implemented a responsive design that boosted mobile user engagement.

Crypto Watch

- Designed and built the CryptoWatch application from the ground up, delivering a feature-rich cryptocurrency tracking platform.
- Integrated Firebase authentication, resulting in a secure and seamless login experience for users.
- Optimized application performance, reducing initial page load times through efficient code and asset optimization techniques.

Clueo Candles | Environmentally friendly candle e-commerce business

- Gained proficiency in ReactJS, Redux, and Tailwind CSS through practical application, contributing to the project's success and learning modern web development practices.
- Actively participated in developing core features such as product listings, individual product pages, a shopping cart system, an about us section, and a contact page with a submission form
- Engaged in identifying and resolving bugs, enhancing the website's stability and usability, while gaining valuable debugging skills.
